PROFFESIONAL SUMMARY

Self-driven BSc Computer Science graduate with a strong passion for Software Development. Eager to leverage education and training in the Information Technology space to support growth and success of a high-performing organization. Great individual and team worker, worked effectively in different groups of students for my Information Systems and Computer Science group projects during my undergraduate studies while being strongly focused on my individual work. Improved technical and intrapersonal skills from personal projects. Committed to continuous improvement and driving team success.

EDUCATION

- University of the Western Cape
BSc Computer Science 2021
- Umtata Technical High School
Grade 12 2017
